Lt. Governor / Director

About the Lt. Governor/Director Mary Taylor

Mary Taylor was sworn in as Ohio's 65th Lieutenant Governor on January 10, 2011, the same day Governor John R. Kasich named her to lead Ohio's Common Sense Initiative (CSI) to reform Ohio's regulatory policies, as well as to serve as the director of the Ohio Department of Insurance. Through these two assignments, Mary Taylor is committed to making Ohio a more jobs - and business - friendly state.

CSI reviews Ohio's regulatory system to eliminate excessive and duplicative rules that stand in the way of job creation. Both CSI and the Ohio Department of Insurance present unique challenges, but Taylor is no stranger to taking on tough assignments.

In 2006, Taylor was the first certified public accountant to be elected to serve as Ohio's Auditor of State, and she transformed the office into a nationally-recognized, 21st-century government auditing firm. The National White Collar Crime Center praised Taylor for her excellence in fighting and preventing fraud and for recovering millions in misspent tax dollars. The Ohio Society of CPA's called Taylor one of their "most influential" members.

Elected to the state legislature in 2002, and re-elected in 2004, Taylor was instrumental in passing Ohio's 2005 tax reform package that reduced personal income taxes by 21 percent. The measure also eliminated the tangible personal property tax, the corporate franchise tax and the inventory tax imposed on businesses. She was a member of the House Finance, Ways and Means, and Education committees and was recognized by the United Conservatives of Ohio as a "Watchdog of the Treasury." The National Federation of Independent Business (NFIB), the nation's largest small-business group, also named Taylor a "Guardian of Small Business" for her outstanding voting record on behalf of Ohio's small-business owners.

Taylor earned a bachelor's degree in accounting and a master's degree in taxation from the University of Akron. She began her career in 1990 with Deloitte and Touche, one of the "big four" national accounting firms. She joined the Akron firm of Bober, Markey, Fedorovich & Company in 1994, where she served as director of the firm's tax department and senior manager of the employee benefits practice.

She's been called an "expert" on state budget issues by the Columbus Dispatch and her hometown newspaper – the Suburbanite – called her one of Summit County's "most influential women."

Taylor is a life-long resident of northeast Ohio where she lives with her husband, Don, and their sons, Michael and Joe.

Lt. Governor/Director's Message

Moving Ohio Forward

Serving as both the Lieutenant Governor and Director of the Ohio Department of Insurance has given me a unique opportunity to frequently interact with people from all walks of life. As I travel the state, I want Ohioans to know the department is one of the largest consumer protection agencies in Ohio and can assist them with their insurance needs.

Ohio continues to be one of the top insurance marketplaces in the world, providing consumers with choice and lower costs. We review rates to ensure they are actuarially sound, not excessive or unfairly discriminatory, and we monitor the financial solvency of companies to ensure they can pay consumer claims. We also diligently keep watch of the business conduct of companies and agents, and fight insurance fraud and scams with our partners across the state. The department also saves millions annually for insurance consumers by reviewing their coverage complaints and by helping them understand their coverage options.

The Ohio insurance marketplace's premium volume ranks ninth in the country and 19th worldwide. The state has more than 95,000 people (not including thousands of agents) working in the industry, ranking seventh nationally in an industry that adds \$17.4 billion to the state's gross domestic product.

With a watchful eye on the future to ensure Ohio maintains its competitive edge, measures are already in motion to benefit Ohioans. The insurance industry is one of the state's largest employers offering career tracks in many different skilled professions, and is also helping to create indirect jobs that support the growing industry. In addition, the Insuring Ohio Futures Initiative, a public-private partnership between industry and the state is helping establish insurance curriculum and college majors. Awareness efforts to attract 26,000 students, career-changers and military veterans into insurance careers by the year 2020 are netting results.

Lt. Governor/Director's Message

In addition, I am proud to say Governor John Kasich recently signed legislation modernizing Ohio's insurance laws to maintain the strength and competitiveness of the state's insurance marketplace while also providing for new consumer protections now and into the future. The department also implemented a 25 percent fee reduction for agents that will save Ohioans \$11.3 million. The department's common sense approach to state government has removed unnecessary regulatory red tape so Ohio can continue as a lead insurance state.

I am pleased about the work we've accomplished, carrying on the tradition of the strong yet fair regulation of insurance in Ohio. We will continue that focus and help keep Ohio moving forward.

Sincerely,

Mary Taylor
Lt. Governor/Director

By statute, the department examines insurers as often as the director of Insurance deems appropriate but at least once every five years.

Program staff analyzes the valuation of reserve liabilities for domestic life insurance companies and monitors and reviews the reserve valuations of domestic health insurers and the actuarial opinions, memoranda, and summaries for all domestic insurers. Insuring Ohio Futures Study Finds 26,000 Ohio Insurance Jobs Will Be Available By 2020

In partnership with the Insuring Ohio Futures initiative and other stakeholders, the department, through several outreach events across the state, highlighted job opportunities and educated Ohioans about insurance career opportunities that will be available to students, career-changers and veterans in Ohio by the year 2020. According to a workforce study using Bureau of Labor Statistics data, the Ohio insurance industry will need 26,000 skilled workers by 2020.

Until recently, Ohio's colleges and universities offered few programs in insurance or risk management. However, industry and higher education leaders have worked together to create a significant number of new higher education courses, insurance certificates and majors at several major colleges and universities throughout Ohio.

Insurers Showing Interest in Ohio Marketplace

The department's risk assessment staff completed reviews of nearly 20 foreign insurance company applications for admission, 12 requests for additional lines of business, six requests for surplus lines authority and one application for trusted reinsurer status. Risk Assessment certified \$522.7 million in premium and franchise taxes. In addition, Risk Assessment updated its online tax reporting program saving significant amounts of time and resources for insurance companies.

Department Accomplishments

Provide Fair and Appropriate Market Regulation

Taylor Named to National Insurance Committees

Lieutenant Governor/Director Mary Taylor was appointed to serve on several National Association of Insurance Commissioners (NAIC) committees and task forces. These appointments have provided the department with opportunities to continue its mission of serving and protecting insurance consumers while fostering a competitive and solvent insurance marketplace in Ohio.

Taylor and the department serve on a total of 19 committees, including chair of the Examination Oversight Task Force and vice chair of the Life Actuarial Task Force. The committees and task forces address issues such as protecting seniors, fighting insurance fraud, maintaining market competition, creating regulatory efficiencies, and monitoring the financial solvency of insurers.

Addressing Agent Misconduct and Unlicensed Activity a Department Priority

During fiscal year 2014, Fraud and Enforcement received 7,000 allegations of agent misconduct and insurance fraud from insurance companies, consumers, government agencies and law enforcement entities. In response to the allegations received, 1,985 administrative and criminal investigations were opened. As a result of the investigations conducted, evidence was gathered to show 577 individuals and entities violated Ohio's insurance laws. Additionally, the department and prosecuting agencies initiated administrative and/or criminal action against 408 individuals based upon referrals made. As insurance fraud impacts all Ohioans in the form of excess premiums, the department will continue to work with federal, state and local prosecutors to bring those who commit insurance fraud to justice.

Department Accomplishments

The department's fraud unit co-hosted the 2014 Ohio Joint Insurance Fraud Seminar with the National Insurance Crime Bureau (NICB), the National Society of Professional Insurance Investigators (NSPII), the International Association of Special Investigation Units (IASIU), and the Ohio Auto Theft Investigators Association (OATIA). Provide Excellent Customer Services

OSHIIP Helped Ohioans Save \$14.8 Million

As of May 20, 2014, the department's Ohio Senior Health Insurance Information Program (OSHIIP) saved Ohioans \$14.8 million by helping them determine the most suitable Medicare coverage for their health care needs. OSHIIP counseled more than 135,000 consumers and conducted more than 2,100 statewide events. OSHIIP expanded their online training opportunities and hosted the online training for Ohio's Medicaid demonstration project, MyCare Ohio. OSHIIP also conducted monthly educational webinars for consumers and stakeholders about Medicare. In addition, OSHIIP conducted 111 public forums, including Medicare Check-Up Days during Medicare Open Enrollment in the Fall.

Department Accomplishments

Consumer Alert Issued Regarding Transportation Networking Companies

The department issued a consumer alert in April regarding the potential insurance implications for Ohio drivers participating in transportation networking company (TNC) services. TNCs are companies that offer transportation services for a fee using an online method or an application (such as smart phone apps) to connect potential passengers to drivers using their personal vehicles.

The department wants Ohioans to be aware of the insurance gaps that may exist for TNC drivers and passengers. Most personal auto insurance policies contain exclusions when a person uses their personal vehicle for commercial purposes, such as carrying a person for a fee. Personal automobile insurance is not intended to cover people who are using their vehicles for commercial purposes.

While TNCs may provide liability insurance, they may not provide medical payments coverage, comprehensive, collision, uninsured and underinsured motorist (UM/UIM) coverage, or other types of coverage to fully protect TNC drivers and passengers.

Tax Lien Program Tracks Down Nearly \$12 Million Since 2011

The department's agent tax lien program collected nearly \$3.9 million in unpaid income tax, sales tax, and workers compensation premium payments during the 2014 fiscal year. As a result of the project, more than 650 agents and agencies have agreed to come into compliance with Ohio laws.

License holders with outstanding tax liabilities work with representatives from the department and the Ohio Attorney General's office to enter into consent orders and payment plans.

Department Accomplishments

Missing Life Insurance Policy Search Program Finds 132 Matches

During fiscal year 2014, the department received 500 valid search requests, which resulted in 132 policies being matched with their rightful beneficiaries. The department's missing life policy program is a comprehensive search service that assists Ohio residents and the families of deceased Ohio residents locate lost life and annuity insurance policies purchased in the state. The search identifies the existence of any life insurance policies or annuity contracts purchased in Ohio and issued on the life of, or owned by, a deceased person. The department forwards search requests and supporting documentation to all Ohio-licensed insurance companies for the search to be initiated.

Consumers Warned to Watch for ACA-Related Scams

After reports of Affordable Care Act (ACA)-related scams surfacing in Ohio last summer, the department, in conjunction with the Ohio Attorney General, shared a warning with Ohioans to help them guard against scams related to the ACA.

Guarding personal information, never paying up-front fees, and avoiding promises that seem too good to be true were a few of the tips offered. Consumers were advised to obtain information from reliable sources by avoiding phony websites or individuals pretending to be associated with the government, and to report scams or suspicious activity to the Ohio Attorney General and the department. Consumers were advised to check navigators and insurance agents' department certification before obtaining information about the exchanges or beginning a business relationship.

New Cost-Saving System of Record Implemented

The department transitioned its system of record for company information from the outdated COSMOS system to the new Ohio Department of Insurance Information System (ODIIS). ODIIS, a platform for department enterprise systems, has significant capabilities in financial transactions processing, data management, business process management, and privacy and security. In addition to using a cutting edge array of technology, ODIIS provides opportunities to help the department interface with other state and federal organizations. It also creates mechanisms for streamlining processes that lead to greater efficiencies for the department, insurers, and consumers.

Department Accomplishments

Fiscal Audit Passed With No Findings

Providing quality customer service also involves the department's fiscal division handling of the agency's financial transactions in a timely and accurate manner. A State of Ohio Auditor's office review of the division's operation during the fiscal year resulted in no negative findings. The Auditor's office determined the division's processes are lean and effective.

Insurers Assisted with H.B. 278-Related Filing Submissions

Ohio law requires insurers to make filing submissions whenever the insurer amends policy forms or rating plans utilized, sold or offered for sale in the state by authorized insurers. House Bill 278 changed several motor vehicle insurance-related provisions, including Ohio's minimum financial responsibility limits. The department's Office of Product Regulation and Actuarial Services (OPRAS) provided assistance to insurers by highlighting the insurance law changes with respect to filing submissions and address questions that had been posed to the department by the motor vehicle insurance industry.

Fiscal Accounts Payable Transaction Processing Successfully Transitioned

In an effort to continue improving its operations, the department's fiscal division worked with the state's Ohio Shared Services (OSS) entity to standardize its accounts payable processes and successfully transitioned the processing of most transactions to OSS, resulting in a meaningful savings.

Department Accomplishments

Provide a Competitive Marketplace

Senate Bill 140 Makes Significant Changes to Ohio's Insurance Laws

Significant reforms were made to Ohio insurance law with the passage of Senate Bill 140, which was signed into law by Ohio Governor John Kasich in June. The bill makes changes to Ohio's insurance laws that will maintain the strength and competitiveness of Ohio's insurance marketplace while also providing new consumer protections.

Among the changes included in SB 140 is the inclusion of a one-page summary document that a consumer can refer to when they wish to get an overview of what is included in their insurance policy. This provision will make it easier for Ohioans to understand what is in their policy in a more efficient and effective way.

Also included is an electronic delivery provision that will provide consumers secure access to information about their policy through newer means of technology. This would include using a desktop computer, mobile device or tablet to access their policy or receive updates regarding any changes to their coverage.

The legislation includes provisions that ensure Ohio's national accreditation by modernizing provisions related to an insurer's own risk self-assessment, credit for reinsurance, model holding companies and regulation of the investments insurers are permitted to make. These changes will help the industry operate more efficiently by updating portions of Ohio law that were outdated in some cases, while ensuring that the department has a strong oversight and additional regulatory tools needed to protect consumers.

House Bill 117 Allows Captive Insurance in Ohio

Governor Kasich signed into law House Bill 117 in June allowing Ohio businesses to form captive insurance companies in the state to provide for their own commercial insurance needs such as commercial auto liability, workers' compensation, and medical malpractice. House Bill 117 also sets forth certain capital and financial reserves, organizational, general application and fee requirements, and gives the department authority to monitor the relationship/transaction between a parent business and its Ohio formed captive(s) instead of relying exclusively on another state's regulator. These measures will provide the department with the regulatory tools necessary to monitor and regulate captives operating in Ohio.

Department Accomplishments

Appointment Fee Reduction Expected to Generate \$11.3 Million in Savings

An amended rule took effect in Ohio on June 30 that reduced the agent appointment fee by 25%, from \$20 to \$15, resulting in an expected \$11.3 million in reduced annual costs. The reduction is the latest common sense agent fee measure taken by the department. A \$5 appointment termination fee was eliminated in 2013, while those who renew licenses late now pay \$50 instead of \$100. The license reinstatement fee was also dropped from \$300 to \$100.

Risk Assessment Closely Monitoring Insurance Companies

The department's Risk Assessment Division completed all reviews of insurers' quarterly and annual financial statements within time frames prescribed by the National Association of Insurance Commissioners (NAIC) and met all other accreditation standards. Risk Assessment reviewed 512 company transactions, including six applications for domestic Certificates of Authority and several significant mergers, acquisitions and re-domestications. It also completed financial examinations of approximately 55 Ohio domestic insurers, including several qualifying examinations and participated in two supervisory colleges.

Eighth Annual Ohio Medical Professional Liability Closed Claim Report Issued

The department issued its eighth annual Ohio Medical Professional Liability Closed Claim Report. A total of 2,773 medical professional liability claims were closed in 2012, according to data collected from entities providing medical professional liability coverage to Ohio health care providers and health care facilities. During the eight years since reporting started, total annual claims have steadily decreased from approximately 5,000 in 2005 to less than 3,000 in 2012. The report is available at www.insurance.ohio.gov.

Ohio's Auto and Homeowners Insurance Premiums Among Lowest in the U.S.

Ohio's average auto and homeowners insurance premiums again ranked among the lowest in the nation. According to the most recent data available from the National Association of Insurance Commissioners (NAIC), Ohioans paid \$620 per year (versus the \$797 national average), which was the ninth lowest average auto insurance premium in the nation. Ohio's average homeowners insurance premium of \$652 (compared to the national average of \$968) once again ranked Ohio sixth nationally.
